NUMBER 22

OUR NEIGHBORING TOWNS

Mr. C. S. Harris Visits Campbellville and Greensburg and Writes Some of His Observations.

SPIRIT OF ENTERPRISE ON EVERY HAND

It was our pleasure last week to spend a day or so in each of our neighboring cities, Campbellville and Greensburg, and when the word pleasure is used it but feebly reflects the feeling that is entertained by The News man for the circle of his acquaintances in the above mentioned localities. The time was when some little unpleasantness between the towns ranked in the breasts of some, but the new spirit existed when we had an unkind feeling against either or against any of their enterprises and efforts to forge to the front in any laudable undertaking, and we can truthfully say that the growth and development of both places is a source of much pleasure to us.

A day and a half in Campbellville fritted away like a bird on the wing and when the hour of departure came, it really was not willing to go. Within the last four or five years Campbellville has enjoyed a most hearty growth—one that any town in the state should justly feel proud. With a new school building that is an ornament to the town, under the control of the Baptists, and the improving of the Presbyterian school building, the best of facilities exist for education. We were informed that both schools had an ample number of students and a corps of instructors justly the pride of all interested in educational advancement.

The Court-house is being remodeled and will when completed, be an attractive building. One of the most conspicuous business buildings of the town is the brick block, recently erected by Mr. Jo Willock, on the main business street. It is three full stories, the first occupied by The Buchanan Lyon Co., the second for theatrical and skating rink purposes, while the third is dedicated to Masonry and is one of the most attractive halls in the state. This building is a monument to Campbellville, to the enterprise of Mr. Willock and a blessing and inspiration to the fraternal order that seek to advance the moral and social virtues.

Campbellville with its mills, factories and commercial interests with an increasing population, demonstrating taste for beautiful architecture in the many new dwellings erected and being erected, with its social, general and attractive citizenship can well and truly look forward to even better days. With two newspapers to keep the desirable and attractive and progressive of the country, and whose efforts to do so should be highly appreciated by all who feel the worth of advancement, Campbellville will eventually maintain her forward steps.

A part of our time was pleasantly spent with friends, too many to mention, but the handshakes and pleasantries from our old friend, Matthews, the guardian angel of The Sentinel and from our new acquaintance, Mr. Richardson, the power behind The Enquirer, made us feel that the ties between the country press are strong and genuine. In recognition of the editor of The Enquirer, whose compliment of The News man was possibly too broad in his last week's issue, we can only say, we hope that your efforts and ability will be duly appreciated in the home and city of your choice in life's great work.

In Greensburg the same cordial greeting was in evidence through the acquaintance and cut short in time, so, stay was a pleasant one. Greensburg has not had a phenomenal growth, but steady improvements all the while, and enjoys a splendid trade with the adjoining country. Present time is the adjustment of our business, we only met a few who seemed closely allied with the people of this vicinity. The building of the pike between Greensburg and Columbia was the main theme of conversation and a determination, on their part, to accomplish it was strongly presented. The enterprising merchants of that city realize the great worth of a closer touch with Adair county; and are willing and anxious to do their part.

As usual we visited the printer and found the editor of The Record in his place of business, a gentleman of Northern birth, but a man whose heart beats in union with the best interests of his adopted home. For several years Mr. Ward has devoted his time and talent to the advancement of Greensburg through his paper, The Greensburg Record, and is still at his post of duty. Mr. Wood Lewis, a leading merchant and a man identified with the best interests of his town and county, was enjoying a good trade. We also met the enterprising merchants, W. W. Mitchell & Moss who have a beautiful

stock of goods whose progressive methods are reaching out for more business.

Mr. John Hobson, the man who advertises enough paper every Spring to plaster the skies, and whose stock of goods would indicate his ability to do it, sends greeting to his many friends in this part of the county. In both Greensburg and Campbellville we found the business men hopeful of better business conditions in the future, and enjoying a good run of trade at present.

Expressions of sorrow of the sudden death of the late C. H. Murrell, so well-known in both places, came from every one we met in conversation and indicated the high esteem in which he was held. That the bonds of friendship, the ties of social intercourse and the relations in industrial advancement are steadily becoming closer and growing stronger between the three towns can not be denied. In this the local press as a factor and for which we are striving to accomplish.

To the circle of both places The News extends good will and wishes, and not yielding our love for home, and home industries, finds much pleasure in your prosperity.

More About Sidewalks.

The Board of Trustees of Columbia adopted the following resolutions at last night's meeting.

Whereas, It is the opinion of this Board that the sidewalks should be built out each of the four principal streets to the town limits, but this board does not think it necessary to have same built on both sides from the old town limits.

It is therefore resolved, that, if the property owners on each street will agree on which side of their respective streets such work should be located and the owners of the property on the opposite side of said streets from which walks are to be built will agree to contribute to the building of the walk directly across the street from their property a sum equal to twenty percent of the amount it would cost to build a walk in front of their respective properties (said cost to be estimated at the rate of fourteen cent per square foot) then such property owners so contributing shall be exempt from building a sidewalk for a period of one year. It is further resolved that the Board at the regular May meeting will consider the recommendations so made and pass ordinances for the building of said sidewalks.

A Very Enjoyable Occasion.

Last Friday was the thirty-second birthday of Mr. Verna Burbridge, who lives with his mother, Mrs. Sarah Burbridge, in the Fairplay country. His mother concluded to celebrate the occasion by having a quilting, a big dinner, etc. Thirty or forty ladies and about that many men were invited. Sheriff W. B. Patterson and Wade Eubank, of this place, being two of the numbers. Mr. Patterson reports that it was the finest dinner he ever enjoyed, consisting of everything good, and that there was an abundance for all present.

While the ladies were preparing the meal, the men concluded that Mrs. Burbridge needed a new yard fence. They went to work, removed the old palings, and in a short time the dwelling was enclosed by a new slat fence. It was a happy day for Mrs. Burbridge, and one that will long be remembered by all those who were present.

Destructive Fire.

Last Monday morning the dwelling house of Mr. W. T. Dohney, who lives a few miles out of town, was discovered to be on fire. The alarm was given but by the time assistance arrived the flames were in such a headway they could not be checked. A large barn stood near the residence which soon caught; and both the dwelling and its contents, with the exception of one bed, and the barn were soon in ashes. The loss is estimated at between four and five thousand dollars with \$1,000 insurance, \$600 on the dwelling and \$400 on the barn. Mr. Dohney has the sympathy of all his friends and neighbors. The origin of the fire is not known.

ADAIR CIRCUIT COURT

P. P. Rice and others, Petition to Adair Circuit Court. Notice. We, P. P. Rice and 37 other qualified voters, within the boundary proposed, have this day filed a petition in the Adair Circuit Court, seeking the setting aside of said court to establish the town of Caney Valley, according to the boundary set out in said petition, and we will on the 2nd day of the next May term of said court move said court to establish said town and appeal officers thereof, March 25, 1909. P. P. Rice and others, by Attorney. 21-17.

Ladies sailers for 25 cents at S. Field & Co. 20-17.

The Meeting.

A great deal of interest is being manifested in the evangelistic meeting now in progress at the Presbyterian Church. Rev. Hendricks tells the story of Jesus in its simplicity, and is an earnest and entertaining speaker. Rev. Carter has charge of the song service and he sings with spirit and with the understanding. There are about thirty voices in the choir, and soul stirring music is rendered at every meeting.

Cottage prayer meetings are held daily. In the afternoon, on every street in Columbia, and meetings are being held in the stores for business men. The outlook is flattering for a great religious uprising, every body taking an interest. The meeting will likely continue until the 15th of the month, and in the morning people living out of town are invited to come in and take part. The services in the forenoon are from ten to eleven o'clock, and the evening services begin promptly at 7:30 o'clock. The preaching is very helpful, the singing delightful and inspiring.

Since witnessing the above the meeting has so grown in interest that, in order to accommodate the vast throngs, the services have been removed to the court-house where they will be continued all during this week, excepting Saturday, and perhaps longer. Saturday is a day of rest. Rev. Hendrick's sermon Sunday afternoon, to men only, was highly appreciated. It abounded in truths freshly presented. At the conclusion nearly every man in the house endorsed his utterances by shaking his hand. Sunday night the large court room was filled to its utmost capacity, a strong helpful sermon being delivered.

Death of Maj. L. J. Lowe.

On Saturday, March 27th, Maj. L. J. Lowe, a gentleman well-known in Tennessee, died at Cookeville at the age of 83 years. The deceased was the father of Mr. John D. Lowe, of this place, who reached Cookeville in time to attend the funeral.

When quite a young man Maj. Lowe was licensed to practice law, following the profession until the beginning of the war, when he volunteered in the Confederate army, but before hostilities ceased he was promoted to the rank of Major. He was a gallant soldier and as a civilian, a fine old gentleman. When the war closed he returned to Cookeville, Tenn., where he spent the greater portion of his life, and became a teacher, and so proficient was he in this line of avocation, he was known throughout the country as a great educator.

Many years ago he confessed his Saviour, united with the Christian Church and was consistent until the end. He was also a zealous Mason and buried with the usual formalities of the Fraternity.

The News is in sympathy with the surviving children, his companion having died two or three years ago.

State Board of Equalization.

The State Board of Equalization is now at work in Frankfort, and it is raising the taxation in a great many counties. Below we give its action as to Adair and several neighboring counties: Adair, 5 per cent, on lands, which was a decrease of \$78,270.5 per cent on lots, which show a decrease of \$2,621.

Casey county increased her list on both lands and lots, but she was raised 5 per cent.

Lands in Cumberland county showed an increase, but lots a decrease. She was raised 5 per cent. In Green county the raise is only two per cent.

Russell county increased her list both as to lands and lots, but she was raised 5 per cent.

Taylor county made an increase, in lands and lots, but 5 per cent. was added. The State is after more revenue.

Display of Artistic Millinery.

Last Wednesday, at the invitation of one of the proprietors, we visited the millinery establishment of Mesdames Hurt & Eubank. It was their opening day and many beautiful hats, trimmed most artistically were on display.

Many ladies called during the day, who were very perceptive in their comments on the selection and make-up of the hats and the taste displayed in arranging the room for the display. Miss Ursula Koelsch, of Cincinnati, a young lady who has had long experience in the millinery business, is with Mesdames Hurt & Eubank. Miss Best Rowe is a saleslady.

A barn, the property of Dreyer Wilkerson, containing seven head of cattle and a considerable quantity of hay, corn, etc., was consumed by fire a few days ago. Mr. Wilkerson's home is near Dunville, Casey county.

Ewing Stults Meets With An Accident.

The Lexington Herald writes as follows concerning an accident which befell Mr. Ewing Stults, of this place, a few days ago:

While practicing at League Park on the fifth or sixth inning, the clever college pitcher secured some time ago by Manager Gansel for the twirling staff of the Rochester team, suffered a broken nose as a result of a peculiar accident.

"Stults was warming up with Pitchers Minahan, Snyder and Johnson. Minahan was knocking 'bunts' to his three team mates. One of these bunts, which was more on the order of a line drive, came towards Stults. He ran for the ball, but slipped just as he neared it, and it struck him on the nose, breaking loose the cartilage. He came to the city immediately for medical attention. Although the injury caused him little pain at the time, it was considerably swollen and it will be several days before he can take active exercise."

A letter from Mr. Stults to his parents says he was not much hurt, and is about well. The following is a schedule of exhibition games in which Ewing will play this month. In each city he gives the hotel at which he will stop:

Apr. 7-8 Louisville—Louisville Hotel. Apr. 9-10 Dayton, O.—Record House. Apr. 11 Cincinnati—Grand Hotel. Apr. 14-15 Fort Wayne, Ind.—Randall House.

Apr. 16-17 South Bend, Ind.—Shiridan. Apr. 18-19 Zanesville, O.—Rogers. Apr. 20 Rochester, N. Y.—Osborne.

Resolutions of Respect.

Whereas our Heavenly Father has removed from the scene of our mortal existence a highly esteemed brother and fellow laborer, J. S. Stapp, and whereas he sustained the closest relationship to the Russell, Creek Baptist Academy, in that he was one of its most liberal financial contributors and was a valuable member of the Board of Trustees, therefore it is resolved.

1. That we record with gratitude our appreciation of his wise and safe counsel, and also of his beneficent gifts which made it possible for us to erect our present elegant and commodious dormitory.

2. That we seek to emulate his generosity by being true and loyal to the institution of learning, which he so tenderly cherished and fostered.

3. That we bow with humble submission to Him who has removed our loved brother to a higher realm of existence.

4. That we place upon record our heartfelt sympathy for his grief stricken family, in this their sad affliction, and that a copy of these resolutions be furnished them, and—

5. That the papers of Columbia and Campbellville be requested to publish this preamble and these resolutions.

Done by order of the Board of Trustees of the Russell's Creek Baptist Academy at a called meeting March 31, 1909. J. L. Atkinson Pres. S. E. Kerr Secy. Campbellville Ky.

They Are Handsome.

The Misses Eubank did not have a formal opening at their millinery establishment, but their many new hats, up-to-date in every particular, have attracted many ladies to their place of business, all of whom speak in glowing terms of the handsome stock now ready for the purchaser. These ladies embarked in this business several seasons ago, and their elegant taste has built for them a fine trade. They are assisted this season by Mrs. Ernestine Koser, who is thoroughly up on every feature of the business.

Will Probated.

The will of the late J. S. Stapp was probated in the Adair County Court last Monday. The decedent gives his wife eight thousand dollars and the remainder of his estate to his children, after all debts have been paid. Mr. James Garnet was named as Executor of the will, but he is undecided as to whether he will take up the duties.

A member of the nine promised to furnish the News last week with a report of the baseball game played here on Saturday between the Lindsey-Wilson team and a nine from the Buchanan Institute, Campbellville, but he failed to do so. The boys played in the field and were forced to quit before the ninth inning was reached. It is our information when the game closed, the first or sixth inning, the score stood 13 to nothing in favor of the Lindsey-Wilson.

The Rochester, New York, nine, Ewing Stults, of this place, pitcher, is doing some fine playing at Lexington where they will practice until about the 15th of this month. Last week they met the Transylvania boys, badly defeating them, the score standing 21 to 5. Chicken thieves are in the land and we understand several hen houses, in the vicinity of town have been visited. A chicken thief could be easily caught if proper precautions were taken. A man who will steal a fowl would steal a horse, all that is lacking is the opportunity.

Notice.

Every one who agreed to join the farmers club as presented last fall are requested to meet in the News Office next Saturday at one o'clock for the purpose of furthering the interest of the organization. Remember that this meeting is important and while only a few joined, it is therefore necessary that every member should be present. Don't fail to attend the meeting. This is the initiatory step, and we hope, to accomplish much good in the farming interest in this county. C. S. Harris.

Our Gradyville correspondent was in the Louisville market last week, hence it was impossible for him to send in a letter this week. He states over the phone that the people of the community are generally well, excepting Mrs. W. Yates, who is quite sick. He also reports that John Franklin's dwelling and all its contents were consumed by fire last Saturday night, and that the smallpox scare is about over, all the patients being much better.

Reveries of a Bachelor was given by a number of young ladies in the Lindsey-Wilson Chapel last Saturday evening. The play was gotten up by Mrs. P. D. Neilson and it was a most enjoyable affair. The chapel was well filled, as is usually the case when an entertainment is given by the college girls. Miss Lucile Shannon, reader, recited in a very happy manner and Miss Esther Nell furnished the music, rendering several selections admirably.

Miss Lillian Van Arsdale, of Springfield, who is a sister of Mrs. Hugh Nease, this place, and who visited here recently, making many friends among the young people, was married at her home, last week, to Mr. Earl Brackney, who is a prominent young miller of Columbus, Mo. Immediately after the ceremony the couple left for the home of the groom.

There was a very fair crowd in town Monday, county court, and the business of town was about up to an average public day. The Republican candidates for office were all here and they were busy throughout the day meeting their friends. The candidates only have seven days in which to canvass, the primary coming on the 24th of this month.

Joe Scholl on Consumption.

The latest treatment for tuberculosis is the most encouraging and gratifying to those who have the white plague. Those who have it should not lose a moment or delay, but put themselves under the care of a competent Physician or a well equipped Sanitarium. See your Physician and ask him to give you full instructions about how to treat tuberculosis at home. Dr. U. L. Taylor's advertisement in the News a few days ago says he is willing and always ready to give instructions, and I assure

you that I believe him to be fully competent. To those who have tuberculosis, or even a suspicion should be examined by a competent Physician, also have the sputa, (spit) and other excretions examined by a Microbiologist as the tubercular bacillus can be seen with microscopes long before any of secondary symptoms or cough, etc., appear, and it is in the incipient stage that the cure is almost sure if treatment is begun in time. Please let me urge the laity, the family and the family Physician to quit telling a patient that he has a liver trouble, bronchial trouble, a stomach or liver cough, or tonsillitis etc., unless you are sure he has them and unless you know he has not got consumption. Such talk to a patient only causes him to lose valuable time, or life saving time, for if the doctor after examining a case should be able to tell the patient he has or has not got consumption. If he has consumption tell him so, and call it by the familiar name,—consumption, and don't call it any other name for if you do the patient, his family and friends will say that doctor so and so said it was so and so, and it was not consumption and you see he would lose time and the most valuable time of his or her life doctoring for something else. The doctor of to-day can say to his patient that if all consumptives will begin in time and with the up-to-date treatment of to-day he can assure the patient that they have as much chance to recover or get well of consumption as of typhoid, pneumonia, etc. If you have consumption just call it that for it is not a crime. Don't use patent cough syrups and nostrums of any kind, but put yourself under a competent Physician or trained nurse. Do this with the understanding that you will diligently and faithfully obey orders, not for a week or month but for months, or until you get back to health which you are most sure to do if you will begin in time. Be sure to do just what your doctor or nurse directs you to do, understanding you are working or fighting for life. This article I hope will be published and that every reader of the News will read and study and tell their neighbors about it. However, the article coming from the source it does may not have the force and effect that it should, but please show it to your family Doctor or the Secretary of the State Board of Health and see what they think about it before you try my plans, or before you throw it in the waste basket.

Now I will not punish you or narrow your feelings longer about the cause, heredity symptoms, contagiousness etc., but let me insist that store houses, churches, public buildings of all kinds and all private buildings should have plenty of spit boxes with copers water or lime water or other germocides in them, and should be scrupulously burned every day. If a consumptive should happen to spit on your floor you should take as much pains in cleaning it up and burning it as you would to kill a copperhead snake or a mad dog. Hope to hear from Dr. U. L. Taylor in regard to the white plague. I hope to write more about it soon.

J. B. Scholl,

Jabez, Ky.

Hungry hearts.

Mrs. Frank Frost, editor of the Vandalia (Mo.) Leader, is the author of the following gem:

"How many hungry hearts there are in the world, hungering for recognition, for a word of praise or recognition for a sacrifice made in his behalf. Love may be there in his heart for her, love deep and abiding, and should death claim her, the fountains of his heart would be broken up and he would realize what he had lost, and cover her grave with roses, which, had they been presented a single one at a time with a tithing of the tenderness he now shows, her pathway would have been far brighter and life a ray of sunshine, not that her burdens were diminished, but by a knowledge indisputable, that her efforts were appreciated. A hungry heart, which is destined never to be fed, is one of the saddest spectacle ever witnessed in this world of ours.

"If you have a word of praise to bestow on your wife—if it is due—bestow it. do not wait until she is dead, and be forced through blinding tears to tell your heart in its throbbing that you have lived a dual life by stifling thoughts and keeping back words that would have brought a flush of pleasure to her cheeks, old as she is, and set her heart to dancing with pleasure only known to those who have had their hungry hearts fed by praise and recommendation."

A Night Rider Raid.

A night rider raid constitutes a riot, according to the dictum handed down by the Court of Appeals, and no insurance can be collected on property destroyed by organized bands of night riders in Kentucky. The decision is an important one, dealing vitally with the interests of insurance companies and tobacco growers, and means, in effect, that the owners of the tobacco stemmeries at Princeton and other places in the State, which were destroyed with their contents by the torch of the night rider, cannot recover on their insurance policies, the riot clause is said policies being upheld.

The court says that the night riders who were banded together and terrorized the inhabitants of the town of Princeton, certainly was a riot within the meaning of the general acceptance of the term, and that insurance policies containing the riot clause do not cover the destruction of property at the hands of night riders or barn burners.

Notes for the Farmer.

An old horse can stand neglect better than the colt. Liming the soil which is sour will help.

Care is the best kind of a preventive medicine.

Select the young sows from the most prolific of the old ones.

Watch the feet of the colts. See that the hoofs are kept even.

The horse has a sweet tooth. Try him on a little molasses. It is good for him.

Oats are good for laying hens. Do not be afraid they will eat too many of them.

Sheep are a persistent agency

of improvement to the land on the farms where they are kept.

Don't jeopardize an extensive crop by using inferior or cheap seed. Get the best and be sure they are the best by testing.

Proper shoeing of the horses in the winter means much to their comfort as well as to the sound condition of their hoofs.

The single feed of hay for a horse if sold off the farm, says an expert, takes more away from the farm than a ton of butter.

Intensive rather than extensive farming should be the watchword of every farmer.

The breeder for early pigs must plan for their proper protection if he would have them do well.

If you did not have a garden last year begin to plan for one this year, and if you had one last year, plan for a better one this year.

Go slow with trying the new varieties in the grain or vegetable line. Test in small plots first and make sure that you have what you want.

The five or eight quarts of milk a day cow will never return the farmer an adequate profit, unless the percentage of butter fat is high.

One successful hogman has gotten away from the idea that hogs like filth and must have it to prosper. He sweeps out his pens every day.

If the barnyard is not drained the puddles of water which collect becomes frozen over and are dangerous for the stock. Look out for them.

Thin the fruit on the trees which set too much next spring and you will be both pleased and surprised to see how much better quality fruit you will get.

Look at your neighbor's faults with a telescope, and at your own with a magnifying glass. Then there will be less disposition on your part to pick flaws, to gossip and to quarrel.

Rheumatism is often caused in the legs of horses by putting them up at night without removing the icepack from their shoes or from their legs. Get the ice off and rub the legs dry.

Better concentrate your efforts on a smaller acreage of land and get from the land all it can give you, than to spread out your energies over a big acreage and get only an average yield.

Ulcers on the horse, or simple abscesses caused by bad fitting collars or saddles, a blow from the butt of the whip, or other causes, if not promptly and properly treated may develop into fistulas.

Medium red clover will yield in seed all the way from half a bushel to seven bushels per acre, the average probably being somewhat under two. The largest yield mentioned is possibly only under the most favorable conditions of growth and maturity and where the production of the seed is made a primary and not a secondary consideration.

Personally, I am never, never again going to say anything disrespectful of a rolling stone. Out where I live there is a high bank, and every day the nice, big stones roll down into my yard. Then my gardener takes 'em and uses them to put around flower beds.

Many a man's failure can be traced to his wife's desire for success.

Get your muck rake down. The frost is almost out of the ground!

Every man who takes your measure does not make you a suit of clothes

An old maid never has to sit up to let in a man who can't find the keyhole.

Not every man can get to congress by wearing a high hat and a Prince Albert coat.

When I get rich enough I am going to choke the alarm out of every clock in my house.

It is better to be a man of one idea than to be a man with a lot of them that won't work.

Sometimes a little thing can spend a lot of money.

Most songs must be guilty; they are so severely punished.

A howling success is not a good thing to call a home talent concert.

It is surprising how bad a good cigar can taste when a man is feeling that way.

The sweetest aeolian harp wouldn't sound like music if it were used to get a man up in the morning.

I wonder sometimes if the writers who tell us to be joyful, ever practice what they preach.

Before I get to St. Peter I would like to know what kind of a janitor he has in the golden house.

An old maid who keeps a parrot that can swear, demands to know why she should have a man around!

There is always plenty of trouble to talk about, just as there is enough joy if you care to converse of that.

The fellow of whom everybody speaks will never gets very far in this world. It's the fighter who wins.

Better begin standing in with the janitor. Maybe he will let you dig some fish worms in the back lot!

Technically speaking, it wouldn't be half as much fun to be rolling in a clover bed.

It always makes a man feel like yelling when he sees another man smoking the band on his cigar. Why?

One of the funniest things about a girl is how sweet she can look in the evening and how upcanny in the morning!

A man who can rock the cradle with one hand and botton his wife's waist with the other is a great matrimonial success.

The stuff in a man is always shown when the last boat comes up to the sinking ship and a fat lady is first on the ladder!

The man who has confidence in a scheme and loses it is still better off than the man who had his money in it and lost that!

Why do we say, "As square as a dollar?" A dollar isn't square at all; it is round—and not very much (a) round at that!

Putting your best foot forward is not as important as putting both of them in the path that every honest man should tread.

Calves are beginning to take

Bradley The Pie Distributor.

Whatever may be said of W. O. Bradley, the Republican Senator from Kentucky he has the remarkable ability of always landing on his feet. Fighting against the nomination of Taft with the earnestness and bitterness which characterizes the man, the news comes from Washington that he of all Republicans from the State is personagrate with the President and that no appointment of importance in the state will be made which do not bear O. K. of the Senator and this too over the men who lead the fight for Taft in Kentucky. Further report is that Senator Bradley has already marked many of these men holding good position for slaughter. There will now be a great exodus from the anti-Bradley crowd to fawn and flatter at the feet of Bradley for favor and endorsement. If the dispatches are to be believed that come from Washington Bradley is the whole push when it comes to patronage and if so, he will push the plank from under many a fellow who has been enjoying a soft job under the former administration. —E-Town News.

The Conviction of the Coopers.

The conviction of Duncan and Robin Cooper for the murder of E. W. Carmack at Nashville was no surprise to the unprejudiced public who had carefully read the testimony. There was absolutely no proof of self defense except the statements of the men under indictment for the crime. While the proof of premeditated assassination was as strong as could be offered. First there was the threatening note from Duncan Cooper that he would kill Carmack if he wrote anything more about him in his paper; the proof that he was shot from behind; the proof that the Coopers went across the street to meet Carmack after the threatening note had been sent when they could have avoided meeting him; and the testimony of the killing. "Now we have got the drop on you." These four facts were sufficient to convict before any jury. The question as to which side either were on in regard to the prohibition question or their political differences did not, and had no right to enter in the case. What Carmack wrote in his paper about Duncan Cooper, while made a matter of proof had no influence with the jury. It was not even sufficient to justify the sending of the threatening note. The verdict was a compromise one, those jurymen who wanted a life sentence or the death penalty preferring to yield the point rather than have a mistrial. The acquittal of Sharp was eminently shown under the proof as it was shown he was not connected with any plot to assassinate Carmack. The ridiculous speeches of Gen. Meeks and Washington did not help the Coopers case as they both made themselves absurd before the country.—E-Town News.

Though a man fail, there is comfort in the thought that his ambitions have at least led him into good company.

Bad Roads Responsible for Illiteracy.

In the mountain counties of Kentucky it is a common experience to find old men who have lived all their uneventful lives without having caught a glimpse of a locomotive. Is it any wonder that such a condition of affairs breeds illiteracy? We hang our heads in shame when we find Kentucky classed as forty-second in illiteracy, when the white population alone is considered. This is very largely the result of the bad roads of the State, which make school-going in the sparsely settled districts practically impossible. Where good roads exist, as in the Bluegrass counties, the illiteracy problem is practically eliminated. Culture and refinement follow, as the social bent of the community is encouraged. The coming together of the youths of the mountains in long terms for study will follow immediately with the building of good roads, and no other condition will make this possible.

It is idle to talk about doing away with the prevailing condition of things until we have gotten at the real difficulty, which is the source of it all. Fill the school houses for eight or nine months in the years with the receptive mountain boys and girls, and keep repeating this operation for a few years and the characteristics for which we criticize their elders will soon disappear.

An Indigestion Remedy Free

Many people who are otherwise healthy suffer from indigestion, or dyspepsia. When you consider that the stomach and allied digestive organs are the most important organs of the body, it would seem that a disorder there is to be taken very seriously.

Dyspepsia cannot cut the things they like to eat from the stomach; then chronic constipation begins, or, as it is often the case, you have been constipated all along and the system is out of order. But there is no use letting indigestion go until it becomes chronic and undermines your health. It is not so difficult to suggest to you that you go to your drug store and get a bottle of Dr. Caldwell's Syrup Pepsin, the wonderful cure for stomach, liver and bowel troubles. It is what C. Fowler, of Carson City, Mich., did and he is well today. Others who did the same and are cured are Mrs. A. Fortunes, of Grand Junction, Penn.; E. F. Thompson, of Shenandoah, Ia., who actually considers that it saved his life. You can obtain a 50-cent or \$1 bottle of the drug, sent to you on order, with directions, it will probably be all you need. It is a liquid, acts upon the stomach, and besides the laxative effect, contains exceptional tonic properties which tone the stomach, and that is what is especially needed in indigestion.

All sufferers from indigestion who have never used Dr. Caldwell's Syrup Pepsin can obtain a free test bottle by writing the doctor, who will send direct to your home without any charge. In this way thousands have been cured of their troubles. Dr. Caldwell's Syrup Pepsin is the very remedy you need to cure indigestion. When once you use this grand remedy you will throw aside catarrhs, flatulency, gas, etc., away.

If there is anything about your ailment that you don't understand, or if you want any medical advice, write to the doctor, and he will answer you fully. There is no charge for this service. The address is Dr. W. B. Caldwell, 530 Caldwell Bldg., Monticello, Ill.

INCORPORATED.

CHAS. S. HARRIS Editor

Democratic newspaper devoted to the interests of the city of Columbia and the people of Adair and adjacent counties.

Entered at the Columbia Postoffice as second class mail matter.

WED. APRIL 7, 1909.

Next Friday will be last day for the Republican candidates to put up their pro rata part of the expense money for the county primary to be held on Saturday, April 24th. Those who fail to put up, either before or on that day, will be out of the contest.

F. P. Combast, Chairman of the Republican Committee for the 29th Judicial District, has called a meeting of the Committee, to be held in Columbia, Thursday, April 15, to name the time and manner of nominating a candidate for Circuit Judge and for Commonwealth's Attorney. All the Committee is requested to be present.

The News and Record at Middlesboro have consolidated, the News having been purchased by the Cunningham Co. The Cunningham Bros. have been in the printing business for many years, and they are fine newspaper men. The News-Record which reached us this week, was a beauty. It contained many "ads" artistically set and the reading matter was newsy and well written.

A convention of Republicans held at Lebanon, last week, nominated Hon. John W. Lewis, of Springfield for Circuit Judge in the 13th district, comprising the counties of Green, Taylor, Marion and Washington. Mr. J. H. Graham, of Greensburg, was nominated for Commonwealth's Attorney. Both gentlemen were present and made speeches, accepting. The Democratic candidate for Circuit Judge is the present incumbent, I. H. Thurman, of Washington county, and the Democratic candidate for State's Attorney is C. S. Hill, of Marion county. At the last November election the district gave a Democratic majority of about 700.

Mr. G. P. Smythe and Mr. M. Rey Yarberry, candidates for the Republican nomination for County Attorney, subject to the action of the primary to be held on Saturday, April 24th, spoke to a good sized audience at the court-house Monday afternoon. Mr. Smythe spoke first, reciting his record as County Attorney for the past three years, asking an endorsement at the hands of his party. He was followed by Mr. Yarberry, who is making the fight on his qualifications, as he stated, and his ability to cope with a Democrat, on the stump, should he be nominated for the position. Both gentlemen had friends in the audience who cheered them at the conclusion of their speeches.

To The Republican Voters of Adair County.

I hereby certify that W. T. Price, of Columbia, Adair county, Ky., has been examined un-

der my supervision, touching his qualifications for the discharge of the duties of Circuit Court Clerk, and I find that he is qualified for said office.

H. C. Baker, Judge
Adair Circuit Court.
This March 29th, 1909.

Columbia, Ky., Mch. 29, '09.
We the undersigned Attorneys at the Columbia Bar, certify that we are well acquainted with Mr. W. T. Price, who is a candidate for the office of Circuit Court Clerk of Adair County, and we know him to be a man, well qualified for the office; that he is sober, honest, and in every way well fitted for the position he seeks.

W. W. Jones, Junius Hancock, H. C. Baker, F. R. Winfrey, J. R. Hindman, H. T. Baker, Jas. Garnett, L. C. Winfrey, Gordon Montgomery, J. F. Montgomery, R. Hurt.

The question of my qualifications having been raised by Mr. McLean, my opponent, I take great pleasure in submitting to you the above certificate of my examination by Judge Baker, our Circuit Judge, as required by law, which speaks for itself. I also ask your attention to the statement of the members of the Columbia Bar on the same subject.

As to my party record, will say that I began to vote the Republican ticket at the age of twenty-one years and have continued to do so until this good year, and will be glad to have you compare that record with that of my opponent, as suggested by him.

Thanking you in advance for your cordial support and assuring you that the same will be appreciated, I am,

Very truly yours,
W. T. Price.

A Just Pica.

Jamestown, Ky., Apr. 5, 1909.
For The Adair County News:

As the time draws near for the selection of a Republican candidate for the State Senate it behooves the members of the party to look with care over the field in order to select the ablest and best man. The writer of this has never been an especial stickler about county lines, but when the county of Russell puts forward as her candidate a man so splendidly equipped for the position, both naturally and by cultivation, as Lilburn Phelps, it does seem that the indorsement given him by his home county ought to be considered most carefully by those having the good name of the district and the interest of the Commonwealth at heart.

Too often does it happen that members of our State Legislatures display more interest in manipulating conventions and primary elections than in passing laws to build up and develop the resources of the state. But with Lilburn Phelps in the State Senate you would have a man there the peer intellectually of any; a man not only able to vote intelligently but also able to initiate measures for the betterment of the State.

Mr. Phelps is a lawyer by profession, having graduated from the Law Department of the University of Louisville and has quite an extensive general practice. He has been twice elected County Attorney of Russell county, defeating in his first race Hon. J. N. Meadows, the the present County Atty., and in his second race, the Hon. J. Bryan Stone, now of Monticello, Ky. Last fall the Republican of 11th Congressional district made him their candidate for elector, but owing to a severe attack of fever was unable to canvass the district as he had planned doing.

W. T. Sharp.

Hatcher.

Quite a number of our farmers are through breaking their corn ground and will plant earlier than usual if the weather will permit. Several have planted their gardens.

A very successful term of the Meadow Creek school closed Friday, under the management of R. H. Turner assisted by Miss Frances Griffin. The enrollment was sixty-three, and the average attendance was beyond the most sanguine expectations. There was much interest and it is predicted that another first-class school will be maintained again in the future. There are several select schools being taught in the county.

The B. C. Institute property at C-ville has been placed in the charge of the Presbyterian churches at Campbellsville and Bethel by Transylvania Presbytery. An effort will be made to perpetuate the Institution. The outlook is good for a first-class school for the next term.

J. L. Turner is in the market purchasing a stock of goods for Turner Bros., of this place.

Miss Nellie Burdette, New Market, returned home this week after a two week's visit to her cousins, Misses Edna and Lizzie Turner.

Mr. Tyler Caldwell left our community a few days ago to make his home in Oregon. He

possesses fine business qualifications and it predicted that he will make a success in accumulating wealth.

Hatcher base ball club has purchased their outfit and will begin practicing at once for the pennant of our county league.

James Hayes, of Ozark, your county, was here this week.

Mr. Elias Coppock, who left here one year, ago for Kansas, writes that he has purchased 80 acres more land to add to his farm. He was a successful farmer here and will probably do the same there.

Rev. L. B. McChord, a seminary student, who has been preaching for the Bethel people, will preach his last sermon here the second Sunday in April. He is well liked by everybody.

Mr. W. F. Campbell, overseer of Meadow Creek, had the hands repairing our road this week. We can boast of the best public highway in our county from this point to Roachville, in Green county.

Cumberland Presbytery is being held at Shiloh and very large crowds are attending.

Sunday School was organized at Liberty last Sunday with J. H. Shreve Supt.

The post card craze seems to increase. It adds greatly to the postal receipts. Very seldom do the young people write letters.

Mrs. Caroline Burress, who has been very low with pneumonia, is better.

Misses Clara Griffin and Katharine Hatcher will enter school at Campbellsville next week to take a normal course, preparatory to an examination for a certificate this summer.

Some miscreants, not known by anyone here, made last Sunday night hideous by firing a number of shots on the public highway after dark. This is the first time within the recollection of any one here that such has taken place. Our court opens next week, and the matter will probably be investigated by the grand jury.

The court-house has been completed, and will be ready to hold court in next week. It presents a very good appearance. It is said to be very substantial, as the walls are thicker than present day buildings.

The Republicans are on a merciless sea as what to do in regard to placing out a full ticket for county offices. Some think qualified material is a "teetle" scarce hereabout. Trot them out. We can make one snow cover them all.

The carpenters have completed Mrs. M. B. Mays' residence near here, and it presents a modern appearance.

Thurlow.

Tobacco plants are looking well in this section.

Chickens are worth 12 cents per pound; eggs 15 cents per dozen on our market.

Miss Lucy Warf left Thursday for Upton, Ky., to attend the normal.

Mrs. R. E. Tucker is visiting her daughter, Mrs. Pernie McAfee, of Donaburg.

Mr. Porter Squires, Red Lick, was at this place last week having some dental work done.

Rev. J. P. Van Hoy was before his audience at Mt. Lebanon

First dam, Bessie Sewell 4805, by Raven Artist 1043, by Chester, by Artist 75. Second dam by Black Whip. Third dam, Cabell's Lexington 3234, by Gist's Black Hawk.

Highland Peacock is so well known by the people of this and adjoining counties as a show horse and breeder, we deem it unnecessary to make any further statement as to his worth. Fee, \$10 to insure a living colt. The Great Imported Hernimie which once sold for \$25,000, and sired the great Hernimie, which sold for \$60,000 and a great many others that brought from \$4,000 to \$25,000, will make the Season at \$10 to insure a living colt. Hernimie is heartily endorsed by the Kentucky Breeders Bureau and we think will be endorsed by nearly every dealer in the State. His fee at one time was \$250.

We have the same jack we kept last year—LOCOFOCUS. This jack has proven himself an excellent breeder and very sure. Fee, Seven Dollars to insure a living colt.

We invite you to call at our barn in Columbia and let us show you our stock.

Resolutions by Big Creek Church.

The following preamble and resolutions were adopted at a meeting of the session of the Big Creek Presbyterian church held on Sunday April the 4th, inst.

Whereas: the Rev. W. H. C. Sandidge, our beloved pastor, for twenty-nine and one-half years, has felt that it would be best both for the church and himself to sever existing pastoral relations, and requests that the session shall unite with him in petition to the Transylvania Presbytery to dissolve said relations, and,

Whereas: After much and prayerful consideration we, not without reluctance, consent to this request, fully realizing that in so doing we are called upon to give up an efficient pastor and a well beloved friend and brother, therefore be it resolved—

1st. That we express our sincere regrets that changed conditions render it advisable to terminate a relationship that has been so successfully maintained for nearly a whole generation. In our long association with Bro. Sandidge we have learned to love and esteem him as a father, a true gentleman, a kind and sympathetic friend and brother, an earnest preacher of the gospel and in all walks of life, a faithful man of God. Certainly, no pastor was ever more mindful of his every obligation. A clear judgment and a loving spirit, characterized his actions. All who came under his helping ministry were made better men and women. Our church and community have cause for joy that such a light has so long shone before them that they might see that the principles of the gospel can be reduced to practical every day life. His untiring efforts to raise the spiritual and moral standard of the people can but bear fruit for all the years to come. So completely does he hold the hearts of all our people that we can only recall with sadness to our remembrance that he is no longer our pastor. However, we shall not be unmindful of the fact, nor ungrateful we trust, that God gave to us so wise and good a spiritual leader. While we yet cherish in memory our old time fondness for him, we do sincerely commend to him and his dear loved ones to the people among whom he has chosen to labor in his new field. We shall continue to pray for his success; hoping that many useful years are to be added to his life. May he realize in all of their fullness the sweet words of numbers 6, 24 and 26.

2nd. And be it further resolved, that these resolutions be recorded in the session book of the six churches, and given to the county papers for publication, and that a copy signed by every official of the congregation be presented to Bro. Sandidge and family.

Signed by the Session.

Mr. Owen Hardesty of Campbellville, bought bogs of the following parties: J. H. Sanders 40 head \$5.20, D. S. Ellis 25 head \$4.25, J. M. Campbell 14 head \$5.35, J. M. Perryman 4 head \$5.25.—Pellyton cor.

Obituary.

Again we are called upon to chronicle the work of the death angel in our midst, Bro. J. Sam Stapp, with whom we have labored so often side by side in the work of the Lord, the sweet singer of gospel songs, has passed away. A lover of the Lord's cause has left us, a support for all good causes like Darcas of old, full of good deeds, has gone to his reward. He never looked upon one in need without trying to relieve him.

He was born in 1863, made a profession of religion at the age of 17, united at once with Providence church, Adair county, of which he remained a member until death, which occurred on Sunday March 21st, 1909. He loved his church as but few men do. He and his three brothers organized a Sunday school 25 years ago in his home church that has never missed a lesson to the present day. He and one brother supported this school for years at their own expense. Strong men wept as they passed his bier, and took their last look at his remains. Both old and young met to pay the last solemn tribute of respect to him they loved until the church building would not hold the congregation. Funeral service was preached by his pastor from 1 Cor. 15, 20 and 25. His body was laid to rest beneath the shadow of the church house he had built and give to the church, as an evidence of his faith in, and love to the Lord.

His spirit is at rest with God while we are left to sorrow our loss. He was married to Miss Hattie Clark April 30th, 1887. To this union were born 3 boys and four girls, 2 of the girls died in infancy, therefore were ready to meet father when he arrived at the gate beautiful. To his companion and children I will say, Yours is not the only loss, his church will miss him, the Sunday school will miss him, the community at large will miss him, especially the poor. We all mourn together with you, we sympathize with you, for you we will pray the Lord to comfort and help you to bear the loss. The Lord had a greater and a sweeter service for him above, it will make heaven more homelike for you. Strive to meet him where there will be no losses or crosses; to bear them we can sing with the "Poet" "We will make the heavenly ring, when we all unite to sing 'His praises in glory."

Words to Freeze the Soul.

"Your son has Consumption. His case is hopeless." These appalling words were spoken to Geo. E. Blevens, a leading merchant of Springfield, N. C. by two experts doctors—one a lung specialist. Then was shown the wonderful power of Dr. King's New Discovery. "After three weeks use," writes Mr. Blevens, "he was as well as ever. I would not take all the money in the world for what it did for my boy." Infallible for Coughs and Colds is the safest, surest cure of desperate Lung disease on earth. 50c. and \$1.00 at Paul Drug Co. Guarantee satisfaction. Trial bottle free.

The singing school is getting along very nicely at Pleasant Ridge—large attendance, good order and fine singing.

There was a large crowd at Edmonton, and business of all classes fairly good.

land was sold at the court-house. It brought \$14,000, and was purchased by Mr. J. H. Kinnaird. It was known as the Jackson Peek timber.

Mrs. Curt Coleman died a few days ago. She was an excellent lady.

Mrs. Sarah Price is very sick at this writing.

A majority of the farmers of this section are making an unusual effort for a large crop of corn and tobacco. Wheat looks well. We are about half done rolling logs.

There was preaching at Pleasant Ridge Sunday by Rev. J. A. Johnston.

Omer Murrell is improving and will be up soon.

The singing school will close Thursday night. Prof. Pickett has taught us an excellent school. Every body enjoyed it.

Blankenship of Belk, Tenn. Only 50c at Paul Drug Co.

Messrs Sullivan and Ogden,

**Grey Lexington**
The Red Bird Stallion

Is a Steel Grey, 16 hands high, and when fat weighs Twelve Hundred Pounds.

As an individual he is rather plain, but not any more so than Red Bird. On account of his plain individuality, for years old Red Bird's worth as a breeder was not known or appreciated. Having a common appearance he was given a poor opportunity to demonstrate his worth. For this reason he was fifteen years old before the public fully realized that he was the greatest sire that this county has ever produced. Red Bird is now owned by Judge Thurman, of Springfield, Ky., and though he stands at a high price he does not lack for patronage, and notwithstanding his age he can not be bought to-day for \$1,000.00. The time has already come when the horse, like man, is judged by what he can do rather than by his appearance alone. Grey Lexington has the combined action of the saddle horse and the trotter. In harness he can go high and fast. No horse in Adair county, not standard bred, can pass him on the road. As a saddle horse he has five distinct gaits. Goes a nodding walk in some style, or can rack a mile on short notice. He is free from defects or blemishes, has good eyes, plenty of sense and is pleasant to handle. He has already proven himself to be a fine breeder. On account of his common individuality he has not had an opportunity to serve many first-class mares, but notwithstanding this fact if he has ever sired an inferior or undersized colt no one knows where to find it.

This is a statement that can be made about but few horses, and of course cannot be truthfully said of any horse that has had a great deal of custom. The first colt sired by Grey Lexington is now owned by Lloyd Watson, of Cane Valley. She is only two years old, but could not be bought for less than \$300.00. No one in Adair county has a better one regardless of breeding. His yearling colts are near Purdy, and of course were raised from common mares, yet they are far superior to colts raised from better mares that were sent away and bred to horses at a higher price. Any one can talk, but all people cannot prove their words to be true. For the proof of what I have said I refer any interested party to any colt ever sired by Grey Lexington. His colts are walking advertisements of his worth as a breeder.

He will Serve Mares at \$10 to Insure a Living Colt.

Money due when colt is foaled or mare traded. Mares that have failed to produce for years and those intended for jockey purposes are not wanted. No responsibility for accidents will be assumed.

PEDIGREE: Sired by Red Bird 1956, A. S. H. R., he by Joe Brown 1855, he by Cabell's Lexington 3294. Red Bird's dam by Bailey's Dexter, he by Cabell's Lexington. Grey Lexington's dam, a standard bred mare entitled to register.

COLONEL BRECKENRIDGE.

In peace or in war the mule is a winner. If you want a mule colt you cannot do better than to breed to Colonel Breckenridge. He was formerly owned by Wolford Bros., of Casey's Creek, and while in that section he proved himself to be a superb breeder. G. C. Russell, of Watson, raised a mule sired by this Jack that was never defeated in a show ring when shown single. When it was four years old he rejected an offer of \$200.00 for it only one week before it died. Two mules sired by this Jack were shown in the two year old class at the Columbia Fair last year, one winning, the premium the other the certificate. This indicates that no better mules than his are produced in the county.

Colonel Breckenridge is a good individual, fifteen hands high and is in good condition to make a season. He will be permitted to serve mares at \$7.00. Terms same as those mentioned above.

The above named stock will make the season of 1909 on the farm of Jas. R. Wade on Green River two miles east of Absher, and two miles north of Purdy. Stock will be kept on south side of river.

A Jury Selected For Ignorance.

Ex-Congressman J. M. Richardson has the following in his paper, the Glasgow Times:

"Four of the jurors in the Carmack-Cooper murder trial can neither read nor write; two others are foreigners and speak only indifferent English; all twelve of them swore they had not read a newspaper since before the killing and some of them admitted that they had not read one for ten years. And these men have been selected, out of 3,019, to sit as jurors in the greatest murder trial of a half century. What a stinging commentary upon the jury system!"

Notice.

While our Merit Contest was on,
one year ago, some friends of the con-
testants ordered The News to be mailed to
some of their friends and paid it for
one year. This was done with good
will toward the friend and to place
the vote in favor of their candidate. Owing
to the crowded condition at that time
we failed to keep a record of such sub-
scriptions and now ask every one who
received the paper through the courtesy
of a friend to notify the office if it is
not wanted and it will promptly be dis-
continued. If no order to discontinue
is received it will be understood that
you desire the paper and that you will
pay for it when bill is rendered. We
trust every one will renew, but are
ready to discontinue when notified.

JAKE

Will make the Season at my Barn, Montpelier
Ky., at \$6 to Insure a Living Colt.

JAKE is a bay stallion, 15½ hands high, very handsome, and pos-
sesses wonderful substance, speed and durability, and, the most per-
fect disposition of any horse I have ever owned or handled. He is
sound in every particular, and will measure up to your demands, if
you want to raise an all-purpose horse. His binding combines the
highest class of trotters, tracing to the great Hambletonian 10, on
both sides, in the second generation. Hambletonian, 10, is conceded
to be the greatest sire of trotters either living or dead, and Jake only
being twice removed from him makes him, beyond question, a horse of
rare binding.

In every instance, money is due when colt is foaled, mare trad-
ed, removed or bred to other stock. All care taken to prevent acci-
dents, but not responsible should any occur.

Dr. E. B. Atkinson will remodel his residence at an early day.

Cane Valley as a village boasts of having some pretty fair business houses and residences and enjoys her share of business. But the business interests could be largely increased if some capitalists would erect a few business houses for rent; a few more dwellings are needed and could be rented at good interest. Why not put shoulder to the wheel and help make your town what it should be? You cannot improve a country, town, or village, by talking and holding on to your land and money. It must be done by act and deed as well as word. Improve your community by making things look inviting to outsider and see the results. There are people waiting to locate in our town but for want of a chance they stand back. A man who is not for progress and betterment of his own country shows no better evidence than when he holds on to land and re-

fuses more cash for his land and than it is worth. This kind of a man is only a leach. Think about it people.

Butter is 20c per pound on the Cane Valley market, and scarce.

Tobacco plants on early beds are up and looking nicely.

Mr. J. A. Whitney has removed his mill from off Russell creek to Mr. William Vanhoy's, of near here and will be ready for running in a few days.

Wonder what has become of all the pork that was put away last fall on account of low prices. It looks like 12½ cents per pound should bring some of it on the market.

Coy E. Dudgeon has accepted a position with Northern Egg & Poultry Co. He is stationed in Columbia.

Pellyton.

Daniel Brown while operating his grist mill last Friday happened to a very painful accident by getting his arm caught in some part of the machinery.

Number 1148

The Best Sire of Saddle and Harness Horses in the World.

Will make the Season of 1909 at his home in Gradyville, Ky., at the Low Price of

\$15 to Insure a Living Colt.

JORDAN PEACOCK needs no introduction to the people. He has made his own reputation by breeding the right kind of horses that the people want everywhere. They are the kind that go under the saddle and in harness; they have the size; they have the style; they have the qualities; they have everything that it takes to make a first-class horse. They are the kind that bring the most money; they are the ones that bring the buyers from other states. Last fall Mr. U. S. Haynes, of Clarksdale, Mo., bought seven of JORDAN's colts at from \$100.00 to \$150.00 each. Did anybody ever know of any other horses' colts selling for such prices? Did you ever hear of any person buying such a number of colts and shipping them to other states by any other horse? Did you know that Mr. Otto Miller, of Moody, Texas, bought two of JORDAN's colts last December for \$1,000.00? Mr. Miller just came to Kentucky to buy one PEACOCK, but he liked them so well that he bought two. He has written me since he went home that he had made a mistake by not buying more of them. Did you know that Capt. Hampton, of Washington City, sent to this county last fall and bought one of the best saddle geldings that JORDAN ever sired? This is only a few of the sales of JORDAN's colts that have been made since last fall. I just mention these to show you that they are the ones that are selling and bringing more than double the price of any others. So don't fool your time away breeding to others, because they are close to you or because the owner of them is your friend. Look to your own interest and breed to JORDAN PEACOCK and get a colt and a good one for you know JORDAN never fails. I believe he is the surest horse living.

Below I will show you why JORDAN is the best breeder.

Read His Pedigree

JORDAN PEACOCK No. 1148, sired by Peacock No. 498, he by Blue Jeans No. 3, he by Phillip's Black Horse, his dam by Grey Eagle. Blue Jean's dam by LeGrand, he by Peter's Halcom. Jordan's dam, Lena Rivers No. 769, she by Cabell's Lexington, he by Gist's Black Hawk. Jordan's 2nd dam, Lizzie Jordan, she by Louis Jordan, thoroughbred. Jordan's 3rd dam by Waggener.
